

SHAREEN SONG

SHENZHEN · HONG KONG

AI PRODUCT MANAGER · BUILDER · RESEARCHER

Shareen SONG.

Exploring how AI, products and human
behavior come together.

[EMAIL ↗](#) [GITHUB ↗](#) [RESUME ↗](#)

I turn *complex systems* into products people can understand and use.

My path moves between computer science, AI product work, business delivery, and the study of human behavior. I am interested in the moment when a technical capability becomes a clear product decision.

I work from evidence: understand the context, define the real problem, separate model ability from product responsibility, and make every important choice explainable.

RESEARCH BEFORE FEATURE LISTS

BOUNDARIES BEFORE AUTOMATION

EVIDENCE BEFORE CONFIDENT CLAIMS

WORK / EDUCATION

A technical foundation. *A product trajectory.*

01 WORK

Fairland Technology Group

AI Product Intern

Researching overseas intelligent-garden products, defining AI and hardware experiences, and turning agent workflows into tools used by product and GTM teams.

2026.04 — PRESENT

SHENZHEN

02 WORK

Baike Rongchuang Technology

Product Solutions Engineer · Product Manager

Took an AI digital-human education product from teacher research to PRD, local deployment, standardized solutions, tenders, and project delivery.

2024.06 — 2025.06

CHINA

03 EDUCATION

Hong Kong Baptist University

MSc Computer Science · IT Management

GPA 3.25/4.0, top 5% of the program, and Semester 1 Merit Scholarship.

2025.09 — 2026.10

HONG KONG

04

EDUCATION

University of Jinan

BSc Computer Science & Technology

Built a technical foundation across machine learning, databases, cloud computing, data engineering, programming, and information security.

2020.09 — 2024.06

JINAN

THREE CASES / REAL CONTEXT

Portfolio explains *why I did it.*

0→1 PRODUCT / HARDWARE / COMPUTER VISION / GAMING

iGarden Motion Game

A 0→1 product direction for a visual motion game console, shaped by North American backyard behavior, computer-vision constraints, and family play.

ROLE

Product research, definition, PRD & prototype lead

[VIEW CASE](#) ↗

AI AGENT / AUTOMATION / DATA PRODUCT / DASHBOARD

Competitive Intelligence Agent

An internal AI agent, SQLite data layer, and dashboard that turned recurring competitor research into a traceable operating system for product and GTM teams.

ROLE

Product design, agent development, validation & delivery

[VIEW CASE](#) ↗

A graphic featuring the letters 'AI' in a stylized, italicized serif font. The letters are centered within a square frame defined by a thin white line. A horizontal line and a vertical line intersect at the center of the square, passing through the 'AI' text. The background is a dark, textured grid.

AI PRODUCT / TOB / TOG / LOCAL DEPLOYMENT / DELIVERY

AI Digital Human Education

A 0→1 education product and reusable ToB/ToG solution system spanning teacher research, product definition, local deployment, proposals, tenders, and delivery.

ROLE

Product solutions engineer · Product manager

[VIEW CASE](#) ↗

AN EXTERNAL INDEX

Thinking in public, *without another CMS.*

ONGOING

GITHUB

Build notes & AI experiments

Code, prototypes, and experiments that sit behind my product thinking.

WRITING

AGENT UX

What makes a good AI agent?

Why capability breadth matters less than evidence, boundaries, and a recoverable workflow.

Research should change the decision.

A note on moving from collected information to an explicit, testable product judgment.

BEYOND THE ROLE

A person before *a job title.*

Travel, cinema, nature, eleven years of yoga, Grade 10 guzheng, and the small observations that keep my product instincts human.

MORE ABOUT ME

HONG KONG / GOLDEN HOUR

IDEAS, PRODUCTS, OR JUST A GOOD QUESTION.

LET'S BUILD
something useful.
